

Introducing the new **KABA pExtra Guard** Cylinder

Get Ready for the Building Regulations Update

Using a 3 star cylinder will enable the door to have any handle type. This product will comply with part 'Q' building regulations.

Coastal's new innovative lock cylinder meets the TS007, British Kitemark approved, 3-Star cylinder standard.

- ▶ Patent protected key blanks, preventing illegal key copying
- ▶ Meets class 6 security standard EN 1303
- ▶ Cylinders marked with new TS007, Kitemarked, 3-Star engraving
- ▶ Compliance Certificate available - This can be passed onto your customer to show building inspector

Protects your door from all common types of attack:

Drilling

Picking

Bumping

Snapping

**Plug
Extraction**

Introducing the new **KABA pExtra Guard** Cylinder

pExtra Guard has been developed specifically to meet the TS007 3-Star standard for lock cylinders and has undergone rigorous testing prior to its full approval to the new standard. To provide a counter measure to, amongst others, the increasing threat of snapping locks, the cylinder itself features several layers of protection. In particular, the cylinder features a sacrificial break slot, which ensures that in the event of the cylinder being snapped, the secure core of the lock is retained within the door preventing forced override of the cylinder.

4 Step Product Selection Process

- 1 Size · 35|35·40|40·45|45·35|45·35|50·40|50
- 2 Type · Double · Thumb Turn
- 3 Finish · Nickle · Brass
- 4 Key · Keyed to Differ · Keyed Alike

What is the TS007 Kitemark?*

To effectively protect your door, the Door & Hardware Federation in the UK (DHF) advises that the lock cylinder and door handles on external entrance doors should meet the highest standard, and protect against all the latest forms of attack. The DHF advises home and business owners that their lock cylinders should be upgraded to the TS007 Kitemark standard.

Secured by Design (the Association of Chief Police Officer's crime prevention initiative) has worked with the DHF and the Glass & Glazing Federation (GGF) to develop the TS007 standard.
